Preschool, Kinder & First Grade Level Dance (Ages 2-7):

Parent/Child Class (Ages 2-3) – Our parent/child classes help your little one explore dance in a fun & creative way with the reassurance of having a parent nearby! Classes also help develop locomotor and gross motor skills.

Preschool Dance (Ages 3-5) – Introduces dance in a fun and musical way. We use props and fun games to explore dance skills in ballet, tap and acrobatics. Creative movement is incorporated in every class. This class helps develop locomotor and gross motor skills, coordination, flexibility, musical rhythm, and balance. It also improves listening skills!

Kinder-1st Grade Dance (Ages 5-7) – This is a pre-dance level to our core program perfect for those in Kindergarten through First Grade who still want a combination of dance styles! Classes establish beginning foundations and technique in ballet, tap & acrobatics. We also explore musical rhythm through creative games and make dance fun & engaging for this age group!

Core Dance Program (Ages 7+):

Level I Classes begin at age 7 to develop a strong foundational base in each of the dance styles below. Levels II and III classes build on technique focusing on proper execution of steps, musicality, rhythm, and timing. Aside from the physical benefits of dance, our classes will help improve listening skills, focus, self-esteem, teamwork, and discipline.

Ballet – The basis of all dance training, where dancers learn technique, proper alignment and execution, strength, coordination, and flexibility, while developing grace, poise, elegance, and stamina. Dancers learn ballet vocabulary, perform barre work, center work and ballet progressions and combinations across the floor.

Lyrical – A more fluid style of dance where a dancer interprets the lyrics of a song through dance movement and emotion, blending the gracefulness of ballet with the sharpness of jazz. Also incorporates partnering and weight shifting moves.

Jazz – Upbeat, sharp, and stylistic dance movements, working on isolations, leaps, jumps, and turns performed in dance combinations to upbeat music. Different styles and genres of jazz dance will be incorporated based on the level of the class. We often offer pom classes, which build on jazz dance and team cooperation!

Tap – Dancers learn rhythms, precision, and timing with footwork to choreographed combinations that improve balance and coordination. Tap is both challenging & fun!

Acrobatics – Instruction in acrobatics includes limbering and tumbling moves that improve strength, balance & flexibility. It is a favorite for those that love gymnastics floor work!

How beautiful are the feet of those
who bring good news!

Our Christmas Performance is a special showcase for our dancers that not only highlights what our dancers have learned in class, but also celebrates our Savior's birth!! Each class learns a choreographed dance to music to perform as a group at the Christmas Performance. Each dance highlights skills and techniques learned during the dance session, in a fun, creative way – which also teaches musicality, rhythm, timing, individual and partner work, group coordination, stage directions, dance formations, show etiquette, stage experience & much more! We especially love that our shows aim to glorify God and uplift his Holy Name!
