Preschool, Kinder & First Grade Level Dance (Ages 2-7):

Parent/Child Class (Ages 2-3) – Our parent/child classes help your little one explore dance and music in a fun & creative way with the reassurance of having a parent nearby! Classes also help develop locomotor and gross motor skills.

Preschool Dance (Ages 3-5) – Introduces dance in a fun and musical way. We use props and fun games to explore dance skills in ballet, tap, and/or acrobatics. Creative movement is incorporated in every class. This class helps develop locomotor and gross motor skills, coordination, flexibility, musical rhythm, and balance. It also improves listening skills and team cooperation.

Kinder-1st Grade Dance (Ages 5-7) – This is a pre-dance level to our core program perfect for those in Kindergarten through First Grade who still want a combination of dance styles! Classes establish beginning foundations and technique in ballet, tap & acrobatics. We also explore musical rhythm through creative games and make dance fun & engaging for this age group!

Core Dance Program (Ages 7+):

Level I Classes begin at age 7 to develop a strong foundational base in each of the dance styles below. Higher level classes build on technique focusing on proper execution of steps, musicality, rhythm, and timing. Aside from the physical benefits of dance, our classes will help improve listening skills, focus, self-esteem, teamwork, and discipline.

Ballet – The basis of all dance training, where dancers learn technique, proper alignment and execution, strength, coordination, and flexibility, while developing grace, poise, elegance, and stamina. Dancers learn ballet vocabulary, perform barre work, center work and ballet progressions and combinations across the floor.

Lyrical – A more fluid style of dance where a dancer interprets the lyrics of a song through dance movement and emotion, blending the gracefulness of ballet with the sharpness of jazz. Also incorporates partnering and weight shifting moves.

Contemporary – A unique genre of dance combining ballet with modern, and even some lyrical and jazz. Movements emphasize fluidity, improvisation, and emotional expression, with a focus on floor work and personal storytelling.

Jazz – Upbeat, sharp, and stylistic dance movements, working on isolations, leaps, jumps, and turns performed in dance combinations to upbeat music. Different styles and genres of jazz dance will be incorporated based on the level of the class. We often offer pom classes, which build on jazz dance and team cooperation!

Tap – Dancers learn rhythms, precision, and timing with footwork to choreographed combinations that improve balance and coordination. Tap is both challenging & fun!

Acrobatics – Instruction in acrobatics includes limbering and tumbling moves that improve strength, balance & flexibility. It is a favorite for those that love gymnastics floor work!
